三、Monthly generation statistics of liquid radwaste input

Waste types	Monthly total volume of liquid radwaste input		Average daily volume of liquid radwaste input		Remarks
Unit(gallons)	146,726		4,891		
Remarks:	1. Quantities of storage : The cumulative quantities of radioactive waste are stored at the radioactive waste storage facilities at the power station.				
	2. Quantities of treatment : The quantities of various types of radioactive waste are treated in this month.				
	3. Quantities of generation for secondary treatment : The quantities of radioactive waste generated are cumulative radioactive waste treated for the second time.				
	4. The volume of liquid radwaste input : The volume of liquid radwaste is collected into the radioactive liquid treatment system at the power station.
