IV 、 Comprehensive description

- 1.The entrusted sample volume should be at least 150 ml. The sample should be packed in a plastic container labeled and marked with the name of the hospital, sampling date and sampling location, etc. If the measurement quality of the sample is affected due to delay, the RMC will notify you to re-sample.
- 2.Sample containers should be tightly sealed. If the container is damaged or leaks during delivery, the RMC will not be responsible, and the applicant should send additional samples.
- 3.According to the standard procedure of RMC-O-011, the sample was analyzed by gamma spectrum radioactivity with a high pure germanium detector.
- 4.The testing fee for each sample is NTD\$2000. It could be paid on-site, draft or postal transfer. Account number is 04317050. Account name is 核能安全委員會輻射偵測中心. The applicant agency should indicate applicant agency name and the testing item on the transfer form.
- 5.The report and receipt issued by the RMC are all based on the information provided by the applicant agency, and others are rejected. If the payment is not completed, the RMC will not issue a report.
- 6.This operation shall be completed within 7 working days from the date of sample receipt. If the operation deadline is exceeded, the RMC will take the initiative to call the applicant agency to explain the processing progress and the reason for the delay.
- 7.Please select the method of delivery of the report: ☐ Retrieve on-site; ☐ Send by post.
- 8.Except for required by law, the RMC will keep confidential information about the performance of laboratory activities.
