International Nuclear Societies Council (INSC)

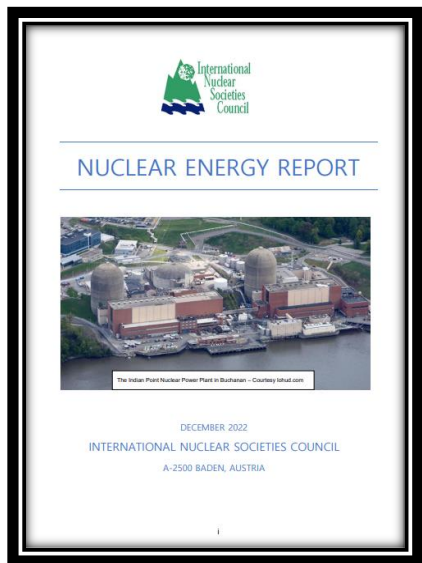

- ❖ Found on **November 11, 1990**.
- ❖ **40** Member Societies represent more than 100,000 nuclear professionals.
- ❖ To act as a **global Non-Governmental Organization in Nuclear Matters** of international nature.
- ❖ To **represent the views and positions** of professionals and workers in the nuclear field.
- ❖ To **value the work and achievements** of the nuclear community.

Members divided into 5 Regions:
Asia Pacific, Europe, Latin America,
North America, At-Large

Nuclear Application in Taiwan

- ❑ **3 Nuclear power plants:**
one in operation
(2023, 8.25 %
electricity)

- ❑ **Medical Application :**

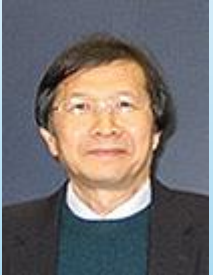

- **High-Intensity Medical Radiation Facilities :** 4 operation , 2 under review
- **13 cyclotrons** dedicated to radiopharmaceutical production. (PET, PET/CT/MRI, SPECT/CT....)
- **Boron Neutron Capture Therapy:** Research Reactor

- ❑ **Research Application:**

- **Radiation sterilization services:** healthcare, laboratory, pharmaceutical, food, packaging, cosmetic, and related industries.
- **Industrial radiography (IR):** assessing material integrity and construction processes
- **New Radiopharmaceutical Development**

Executing the Emergency Preparedness and Response at NPP

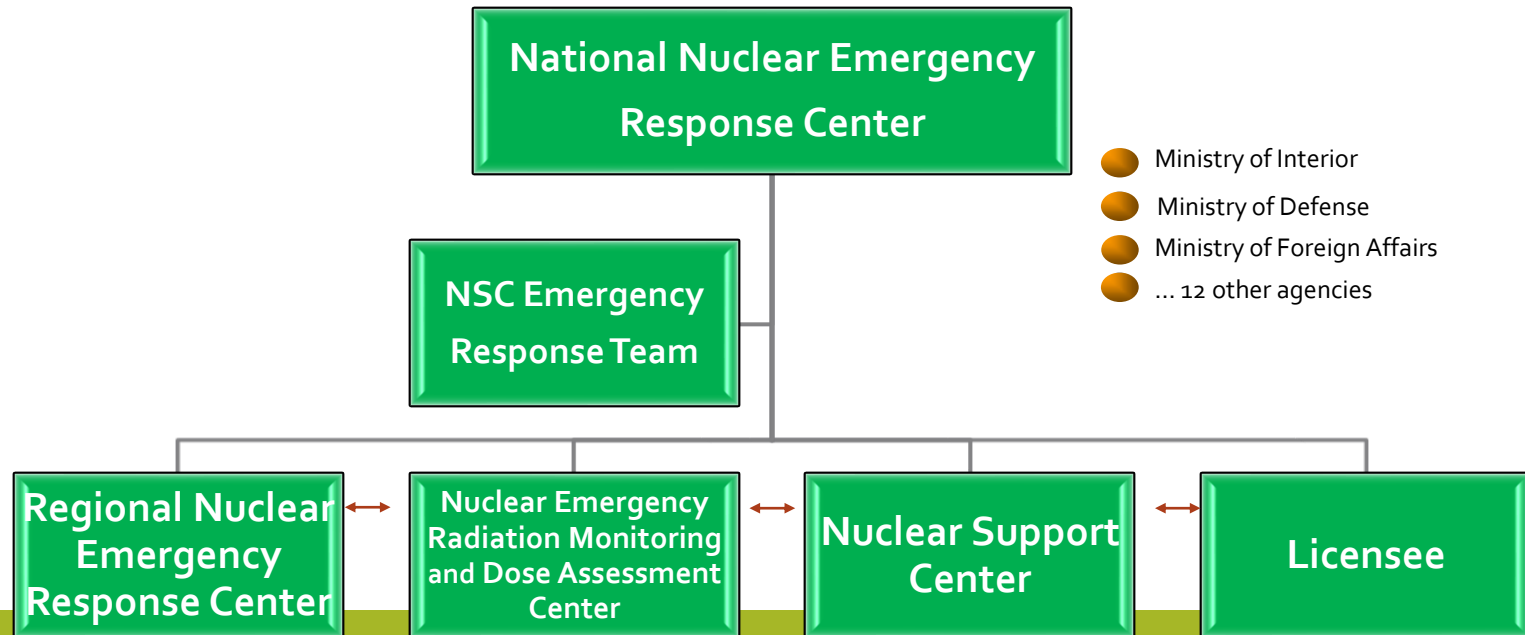

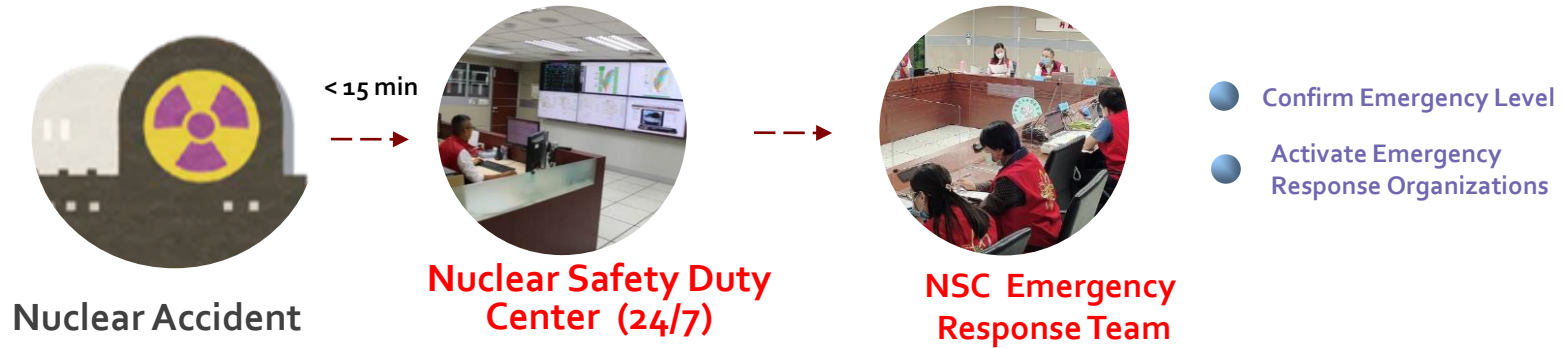

According to Nuclear Emergency Response Act and its Enforcement Rules, a Nuclear Emergency Exercise shall be conducted periodically in one of the **Emergency Preparation Zones**.

Plant	Capacity/ Type	License Expiration Date
Chinshan ²⁰²¹	1,804 MWt/unit GE BWR4 X 2	Unit 1:2018.12.05 Unit 2:2019.07.15
Kuosheng ²⁰²³	2,943 MWt/unit GE BWR6 X2	Unit 1:2021.12.27 Unit 2:2023.03.14
Maanshan ²⁰²²	2,822 MWt/unit WH PWR X2	Unit 1:2024.07.27 Unit 2:2025.05.17

Annual Calendar

The AEC APP complies information on nationwide environmental radiation reading and protective actions during a nuclear accident. Please feel free to download and make use of it.

The guidebook compiles protective actions to be taken during a nuclear accident, including shelter in house, take iodine tablets and evacuation/reception, providing the general public with information on self-protection.

Pamphlet

Nuclear Emergency Exercise

According to Nuclear Emergency Response Act and Enforcement Rules, we need to conduct exercise periodically in one of the EPZs.

Exercises are used to evaluate emergency response mechanisms, and ensure that public protection measures can be effectively implemented.

Emergency exercises have been conducted in mock scenario, on-scene and real-life since 2013.
